INFORMATIVE, INNOVATIVE, IMAGINATIVE

Keynote Speaker: Bernie Siegel, MD, author of the best-selling *Love Medicine and Miracles* and most recently *Faith, Hope and Healing*. Approximately 20 ACCME accredited AMA Category 1 CMEs will be offered, as well as naturopathic CMEs, NCCAOM CMEs and more.

Participants in this world-class conference will hear the wisdom and experience distilled over many years by a wide range of practitioners spanning the spectrum of cancer care.

Whatever your connection with the cancer community, whether you are a primary care and/or integrative physician, oncologist, naturopathic physician, herbalist, chiropractor, acupuncturist, nutritionist, psychologist, student, patient, or family member of a person with cancer, you will leave this conference enriched with a depth of practical clinical approaches, along with a broad understanding of how the experienced practitioner conceptualizes and works with specific cases.

This year's conference will focus on cancer treatment and prevention, with new, up to date thinking on cancer care and successful outcomes research, and also how primary care doctors can become more knowledgeable and participatory and be of help to their patients from preventive medicine and therapeutic perspectives.
